

RECTANGULAR FEEDER FOR CATTLE, 26 FEED OPENINGS

34-RFH26

A very robust feeder with ample feed openings

- 26 feed openings
- Intended for cattle
- L x W x H = 305 x 194 x 145 cm
- 61 cm high metal base
- 35/45 cm wide feed openings

A rectangular feeder with space for one square bale or two round bales.

The metal base, which prevents cattle from pulling feed out onto the ground, is 61 cm high. The feed openings are 35 mm wide. Hot-dip galvanised.

NOTE! Any plastic film/netting around the hay bale must be removed before use.

Why is it a good idea to use a feeder?

- You reduce wastage as the animals do not trample around in rejected roughage.
- You improve the hygiene of the feeding area by minimising the risk of contamination.
- It takes less time to tidy the feeding area and you need to throw less roughage onto the manure heap.

Please consider your livestock and their needs when choosing a feeder. Always follow your country's agricultural rules and animal welfare regulations.

TECHNICAL DATA

Feed openings	26 pcs
L x W x H	3050 x 1940 x 1450 mm
Tubular pipe	Dimension 35 mm
Rim high	610 mm
Weight	220 kg
