

POST DRIVER

27-PD80

This post driver is a versatile fencing tool

- **Efficient**
- **Gentle on posts**
- **Reliable 4-stroke engine**
- **Fuel-efficient**
- **Low engine noise**
- **20–80 mm posts**

Its own weight of 14 kg and the power from the 4-stroke engine make it easy to drive posts gently into the ground.

Easy to start and simple to operate.

83 mm collar protects the top of the post as it is driven in.

The vibration-resistant handles ensure a good working environment.

Large transparent tank and extra handle on the top make it easy to move the machine from place to place.

360° work area. Adjustable down force.

Spring-action rubber handle significantly reduces the machine's recoil.

TECHNICAL DATA

Diameter	Max 80 mm
Capacity	15-45 Joule
Down force	800 - 1600 blows/minute
Engine	4-takt 37,7 cc, 1,3 hp
Weight	14 kg
