

FEEDER WITH TOMBSTONE RAILINGS FOR CATTLE, 14 OPENINGS

34-FHB14N

Feeder with 14 openings for cattle, with roof and tombstone railing

- 14 feed openings
- Gates with tombstone railings
- Adjustable roof height
- 3 base supports provide good stability
- Adapted for round/large bales

A solid feeder with external dimensions 200 x 300 cm and 4 opening gates. Feed can be replenished quickly and easily by opening any of the four gates, which open out to the side. The width of the opening is 190 cm/290 cm and all silage bale sizes fit in the feeder. Three feed openings with robust tombstone railings on each side. The feeder has pallet fork insertion points so that you can easily lift and move it.

TECHNICAL DATA

Tombstone railing	43 mm Ø
Feed openings	14 pcs
Total width	2000 mm
Total length	3000 mm
Weight	450 kg

The feed is well protected against the weather under the roof, and is thus always fresh and clean when the animals feed. The roof is height adjustable.

Three base supports ensure that the feeder is stable and does not sink into the ground in wet conditions.

The entire feeder is galvanised for a long service life.

The FHB14 is suitable for horned animals.

NOTE! Any plastic film/netting around the hay bale must be removed before use.

Why is it a good idea to use a feeder?

- You reduce wastage as the animals do not trample around in rejected roughage.
- You improve the hygiene of the feeding area by minimising the risk of contamination.
- It takes less time to tidy the feeding area and you need to throw less roughage onto the manure heap.

Please consider your livestock and their needs when choosing a feeder. Always follow your country's agricultural rules and animal welfare regulations.

ACCESSORIES

Extend your application with these practical accessories.
