

FIREWOOD SPLITTER, TRACTOR-DRIVEN, 7 TONNES, 110 CM

13-VK1100

Versatile, strong and non-electrical solution

- Protective cage as standard
- 7 tonnes of splitting force
- 2-way and 4-way splitting wedge
- Two-handed control = Safety
- Adjustable splitting length for faster processing
- Large work table for versatile handling of cut firewood

Tractor-driven firewood splitter with maximum 1,100 mm splitting length. Three-point linkage and hydraulic hoses with male couplings for pressure and return outlets on tractor. Safe two-handed control to avoid personal injuries.

4-way splitting wedge that is easy to set to two fixed heights and substantial work table for quick handling of split firewood. The splitting length can be variably set for faster splitting of shorter log lengths.

7-tonne splitting force means the most stubborn wood types can be split and the firewood splitter is flexible as it is not dependent on electricity.

TECHNICAL DATA

Operating height	720 mm
Splitting length	300 - 1100 mm
L x B x H	2730 x 960 x 1390 mm
Splitting force	7 ton
Weight	168 kg

ACCESSORIES

Extend your application with these practical accessories.

13-VS1500
13-VT250

Firewood bulk bag 1,500 l
Firewood conveyor 5.0 m

13-VS1500DS
13-VT275

Firewood bulk bag 1,500 l, openable bottom
Firewood conveyor 7.5 m
