

ALUMINIUM HEAD GATE WITH BASE SUPPORTS

25-300160A

[See videos](#)

The ideal gate for those who move gates around a lot!

- At only 16.8 kg, the gate spares your shoulders and back
- 3.0 m wide, total height 1.7 m – fits our other gate systems
- Loop tubings at top and bottom
- Reversible
- Includes two 350 g chains

The aluminium head gate is an ideal addition to our normal gate system, and with its low weight of only 16.8 kg, it spares your shoulders and back. The ideal gate for those who move gates around a lot and only use gates for herding paths, circular pens, enclosures for sick animals, etc

At only 16.8 kg, the gate spares your shoulders and back

Its extremely low weight means it can also be used as an opening gate. The total height is generous at 170 cm, so that the animals do not jump over the erected enclosure. Loop tubings to prevent injury to animals if they try to escape.

The gate is reversible, which reduces the gap between the ground and the first stay. This reduces the risk of calves which lie down getting up on the wrong side.

The design of the loop foot prevents the gate from sinking into the ground, and acts as a skid when you move the gates. The gates are simple to connect together with a chain lock, which facilitates fast and secure connection.

"We farmers often lift and carry heavy loads, so for us this gate is more than welcome – we use it every day!" says Claes Johansson at Tyska farm in Skånings-Åsaka. Claes has 400 animals in his herd, including 200 dairy cows.

TECHNICAL DATA

Materials	Aluminium
Tubular pipe size	55/29 mm
Total width	3000 mm
Total height	1700 mm
Weight	16,8 kg

ACCESSORIES

Extend your application with these practical accessories.

34-FT40

Feed trough for gates, 40 l

34-FTH

Feed trough for roughage

34-FT140

Feed trough for gates, 140 l
