

FIREWOOD CONVEYOR 7.5 M

13-VT275

Firewood conveyor makes your work more efficient and easier

- Increase production and take the strain off your body
- 7.5 metres
- Stop for excellent safety
- Transport wheel making it easy to move
- Sturdy clever design

The conveyor is easy to move with the wheels positioned centrally for good weight distribution. Simple height adjustment and belt tensioner and the position of the motor in the top part ensure it is well-protected against impact and sawdust.

Large feed point and fluted conveyor belt with 19 cleats provides maximum capacity. 230 V power socket with emergency stop for excellent safety.
