

DOLLY MANUAL

23-DH

Move carts, ATV equipment and horse trailers easily!

- L x W x H 1,200 x 600 x 560 mm
- Inflated tyres
- Rubber-coated handles
- Ergonomically designed handles
- Built-in stabilisers

An easy-to-use product which enables you to move ATV equipment, boat trailers, caravans, horse trailers and other carts easily

Profile design, generous dimensions for longer service life and sustainability, as shown by the weight of 12.5 kg. The product has built-in stabilisers.

The trailer dolly is especially good in enclosed spaces where flexibility is most needed.

The tyres are inflated, which makes it easy to handle on most surfaces.

The handles are rubber-coated and ergonomically designed for optimal manoeuvrability.
