

## GRAPPLE ATTACHMENT FOR PALLET FORK WITH LOW FRAME

16-JPGN

**Grapple attachment that fits Kellfri's adjustable pallet fork with frame height 50 cm**

- **Max. load 1,000 kg**
- **Hydraulic hoses 150 cm**
- **Hydraulic hoses Ø 2 cm**

A cheap and easy way to utilise the pallet fork for loading timber or brushwood.

The grapple is controlled using a double-acting hydraulic cylinder. The grapple is fitted to the fork frame.

The grapple attachment requires a double-acting hydraulic outlet on the tractor.

The grapple attachment is supplied with two hydraulic ½ inch, quick coupling male hoses.
