

STUMP GRINDER

27-SF20

Save your back when you want to remove stumps

- Grinding depth 5-10 cm
- Grinding height 35 cm
- 12 grinder blades
- Powerful hardened steel teeth
- Stable handles

Kellfri's stump grinder is used to remove stumps by moving the blade in a sweeping, sideways movement.

The powerful hardened steel teeth grind the stump down by around 1-2.5 cm with each sweep. Stable handles make the machine easy to lift off and move from one workplace to another. 13 hp motor. Centrifugal grinder clutch.

Watch a video [here](#), on [kellfri.com](#) about how easily our stump grinder grinds down stumps

TECHNICAL DATA

Width	760 mm
Cultivation depth	50 - 100 mm
Grinding height	350 mm
Grinder coupling	Centrifugal
Number of grinder blades	12 pcs
Wheel diameter	250 mm
Engine	13 hp
Volume amount of fuel	6,5 l
Gearbox oil quantity	1,1 l
Weight	125 kg
