

PALLET FORK, 2.5 TONNES, HYDRAULIC, BRACKET SUITABLE FOR TRIMA

16-JPFT25H

Hydraulic adjustment of pallet fork width directly from the cab

- Max. load 2.5 tonnes
- Frame width 122 cm
- Frame height 68 cm
- Pallet fork width 12 cm
- Pallet fork length 120 cm

Powerful and robust frame. Forged forks with wide load-bearing surfaces.

The pallet fork requires a double-acting hydraulic outlet on the tractor.

The pallet fork is supplied with two hydraulic ½ inch quick coupling male hoses and attachment that fits Trima.

TECHNICAL DATA
